Any table or material published in this Report may be reproduced and published without the Fiji Bureau of Statistics' prior approval. However, the source of information should always be identified and acknowledged in all modes of presentation.

PREFACE

The report provides information on Education Activities in 2012. The information was gathered from establishments engaged in the Education activities. These activities include providing education at any level or for any profession, oral or written as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at its different levels as well as adult education, literacy programmes etc. It excludes information on Education activities in the informal sector.

The important numbers presented are the macro-economic aggregates such as Gross Output, Intermediate Consumption, Value Added, Compensation of Employees, Consumption of Fixed Capital and Operating Surplus. These aggregates are combined with similar information on other industries to provide an estimate of GDP, which is a measure of our economy's size. Information made available in this report will allow us to work out the industry's contribution to the economy. Information contained in this report constitutes inputs to a national accounts system which basically provides a quantitative image of the whole economy.

Information on the education Industry would be useful to a good number of users, for instance the;

- 1) Economist who needs to analyze supply and demand in the industry.
- 2) Planner who uses the data to forecast the economy's performance.
- 3) Investor who wishes to have a close look at opportunities available in the education sector.

The cooperation of those establishments who supplied the information presented in this report is hereby acknowledged. The Bureau of Statistics will continue to seek their support as we need to continually provide reliable statistics for evidence based planning. I also would like to thank the staffs who were engaged in the conduct of the survey and the preparation of this report.

Epeli Waqavonovono
Government Statistician

1 INTRODUCTION

1.1 History of Surveys undertaken

A brief description of previous studies done on this sector is given below in chronological order.

1973:

A report on the non-profit making institutions was **produced** in February 1973¹. This survey contained the results of the first survey conducted in Fiji on the non-profit making institutions, and since educational institutions are non-profit making institutions, it is assumed that they were covered in this survey. Since copies of this report could not be found, the exact title of the survey/report and the period covered cannot be given.

1976: The Census of Private Non-Profit Making Institutions in Fiji

This was the second survey to have been conducted and was designed to assess the contribution of the sector to the GDP. The survey covered all private non-government schools and other private non-profit making institutions.

1981: Survey of Private Non-Profit Making Institutions

This survey covered all non-profit making institutions including educational institutions. It was an ad hoc inquiry conducted by the FBoS because of the need by its National Accountants to re-base the constant price GDP to a more recent year.

1995: Census of Social and Related Community Services

This report contains the results of the survey on Social and Related Community Services, including education. Like the earlier surveys, this too was an ad hoc inquiry conducted by the FBoS because of the need by its National Accountants to re-base the constant price GDP to a more recent year.

2002: Census of Education

Education activities were covered under the scope of this survey that was conducted by FBoS because of the need by its National Accounts Business Unit to rebase constant price Gross Domestic Product 2002.

2008: Census of Education

Education activities were covered under the scope of this survey that was conducted by FBoS because of the need by its National Accounts Business Unit to rebase constant price Gross Domestic Product 2008.

2011: Census of Education

Education activities were covered under the scope of this survey that was conducted by FBoS because of the need by its National Accounts Business Unit to rebase constant price Gross Domestic Product 2011.

¹ Source: The preface of the report titled “The Census of Private Non-Profit Making Institutions in Fiji 1976”.

This report contains the results for establishments survey carried out for education activities for 2012 (refer 2.2 on coverage and scope). From 2011, it has become an annual inquiry.

1.2 Need for statistics relating to Education

Education is an important economic activity, whether in terms of the sector to the GDP or in terms of its share of total employment and Gross Fixed Capital Formation (GFCF).

Statistics on education are therefore needed for the preparation of national accounts so that a meaningful study of the whole economy can be made. The data can also be used to construct the input-output table that shows the inter-connection of the education industry with other industries. Policy makers too require the data for formulating sound economic and social policies that augment capital formation. In addition, the establishments engaged in the education industry find the data helpful in assessing the future direction of their activity.

2 METHODOLOGY

2.1 Legal Basis

The surveys were conducted under the provisions of the Statistics Act (Cap 71). This Act protects the confidentiality of the information submitted by the establishment and stipulates the completion of the questionnaire as well.

2.2 Coverage and Scope

The 2012 survey covered all establishments operating in the education industry defined by the Fiji Standard Industrial Classification (FSIC) 2010 Section P. It is nevertheless possible that some small units not employing regular paid workers may have been omitted due to difficulties in identifying them, but the nature of such units do not affect the overall results in any significant way.

The establishments in the educational sector are engaged in providing education at any level or for any profession; oral or written as well as by radio and television or other means of communication (refer Appendix II for the Industrial Classification Used).

Educational activities undertaken by the Central Government Ministries and Departments e.g. the Education Department and the schools operated by the Central Government fell outside the scope of this survey since they fall under the scope of the Survey carried out for the General Government. Results of these are contained in the report titled An Economic and Functional Classification of General Government Accounts 2012.

2.3 Statistical Unit

The unit of reporting was the establishment (refer Appendix I on Concepts and Definitions).

2.4 The Frame

The frame utilised to survey the establishments engaged in the Education industry in 2012 was the list of establishments maintained by the FBoS. This list is known as the Business Register (BR), which is kept updated on the basis of information supplied to the FBoS by the Fiji Revenue and Customs Authority, Fiji National Provident Fund, Registrar of Companies and the City and Town Councils.

2.5 Questionnaire Design

A common questionnaire was used for surveying all types of education. It called for information on the particulars of the establishment e.g. type of organisation; income; expenditure; stocks; assets; liabilities and employment.

2.6 Data Collection and Survey Procedures

The questionnaires were posted on 20th September, 2013 and replies were required within a month. Response by the due date was low; therefore a reminder was issued. In extreme cases, personal visits to obtain the questionnaires were made to those establishments that did not respond in spite of a reminder and to those establishments that required assistance in filling out the questionnaires.

Once the questionnaires were received in the office, scrutiny and editing of data contained in them followed. Errors and omissions if found, called for more correspondence, telephone calls or personal visits in an attempt to obtain complete and correctly filled up returns, which were then placed in files sorted by activity and passed on for data entry.

On completion of data entry, tables were run, data edited and analysed and reports written.

2.7 Data Processing

Data was processed by FBoS' Information Technology Business Unit using Statistical Analysis System (SAS) software.

2.8 Reference Period

The establishments contacted were to submit details for the calendar year 2012. Where the accounting year differed from the calendar year, establishments were asked to provide information for the accounting year that covered the major part of the calendar.

2.9 Non-responding Establishments

Establishments that did not respond to the survey and establishments that operated during the whole or part of the survey reference period but became untraceable during the survey enumeration period due to closure or removal, were taken as non-respondents. To account for the operations of the non-responding establishments, data were rated-up.

2.10 Rate-up Factors

Data of non-responding establishments were calculated using rate-up factors. The rate-up factors were derived by first sorting out establishments into types of business and then grouping these establishments into 6 “number of persons engaged” size groups of 1-4; 5-9; 10-19; 20- 49; 50-99 and 100+. Using number of persons engaged in each of this group, simple arithmetic means of Value Added (VA) were obtained. These arithmetic means were then multiplied by number of persons engaged in each of the non-responding group to estimate their data. The estimated figures for the non-responding units were then added to the figures of the responding units to arrive at the estimated data of the education sector.

The GFCF too has been estimated for non-response. Generally capital formations in small establishments, like the ones who have not responded in our inquiry, are low.

Empirically,

$$\hat{G}_{(i)} = \frac{\sum_{i=1}^6 \sum_{j=1}^k g_{ij}}{\sum_{i=1}^6 \sum_{j=1}^k n_{ij}} \left(\sum_{i=1}^6 \sum_{j=1}^k n_{ij} + \sum_{i=1}^6 \sum_{j=k+1}^s n_{ij} \right)$$

Let n_{ij} be the number of employees in group i of the j establishment of those surveyed and let g_{ij} be its corresponding parameter; $i = 1$ to 6 ; $j = 1$ to s , where s is all surveyed. Then estimate,

where $k =$ number responded

$l =$ number not responded (which is $s-k$)

3 RESULTS

All data contained in this report are in Fiji Dollars and in current prices.

Except for tables 1 to 5B and 8 to 10 that contain as per survey data, all other tables have been estimated for non-response.

Results of some sub-classes have been grouped together in order to protect the confidentiality of the information supplied by them.

CONCEPTS AND DEFINITIONS

All concepts and definitions used in this report are based upon the recommendations of the United Nations. The major concepts and definitions and their treatment are briefly explained below.

<i>Compensation of Employees</i>	Includes payments, whether in cash or in kind, made by the employer during the inquiry period for the work done to all persons included in the count of employees. It includes all cash payments, commissions, bonuses, cost of living allowances and wages paid during periods of vacation and sick leave, contributions in respect of their social security and pension and payments in kind.
<i>Consumption of Fixed Capital</i>	In theory this is the value of the current replacement cost of fixed assets used up during the accounting period as a result of normal wear and tear. The consumption of fixed capital shown in this report is derived from the information supplied by the firm. This is expected to conform largely to the requirements of Income Tax Act.
<i>Employees</i>	This includes all persons who work in the establishment and receive regular pay and persons working away from the establishment when paid by and under the control of the establishment, including persons on sick leave, holiday or vacation. Also included are salaried managers, and directors of incorporated businesses except when paid solely for their attendance at board of directors meetings. This category excludes working proprietors and unpaid family workers.
<i>Establishment</i>	An establishment can be referred to as an enterprise that engages in one or predominantly one kind of economic activity, at or from one location, for which data are available or can be meaningfully compiled, that allow the calculation of the operating surplus.
<i>Fixed Assets</i>	Fixed assets include the value of all physical assets expected to have a productive life of more than one year and intended for use by the establishment. Included are major additions, alterations and improvements to existing fixed assets that extend their normal economic life or raise their productivity.
<i>Foreign Owned</i>	Subsidiary of an overseas company is always considered foreign owned, whereas a branch of an overseas company is only considered foreign owned if 51 per cent of its equity is held abroad.
<i>Government Owned Entities</i>	These include commercial companies and commercial statutory authorities either wholly owned by Government or in which the Government has a majority shareholding.
<i>Gross Fixed Capital Formation</i>	This is the outlay on new and second-hand durable goods less their sales plus their own account capital construction work done.
<i>Gross Output</i>	This is the gross value of all goods and services produced during the accounting period, the value of own account capital construction and other income.

<i>Intermediate Consumption</i>	Intermediate consumption consists of non-durable goods and services which have a lifetime of use of less than one year. Compensation of employees do not form part of intermediate consumption, but expenditure such as travelling expenses of management personnel are included. Intermediate consumption differs from total purchases of raw materials, fuels etc. by the amount of stock changes of such goods. Valuation of intermediate consumption is at purchasers' value i.e. it is inclusive of all costs incurred by producers in the acquisition of the required goods and services.
<i>Local Owned</i>	All companies with 51 per cent or more of its equity held in Fiji are considered locally owned.
<i>Operating Surplus</i>	This is the excess of value added by producers over compensation of employees, consumption of fixed capital and net indirect taxes.
<i>Payments in kind</i>	This is defined as the net cost to the employer of those goods and services furnished to employees free of charge or at markedly reduced cost that are clearly and primarily of benefit to the employees as consumers. The item includes food, beverages, clothing (except uniforms for civilians as these are not worn off-duty) and lodging etc.
<i>Persons Engaged</i>	This is defined as the total number of persons who worked in or for the establishment during the reference period, including working proprietors, active business partners, unpaid family workers and regular paid workers.
<i>Statistical Unit</i>	Statistical unit is the Unit for which information is collected.
<i>Unpaid Family Workers</i>	Unpaid family workers are persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least one third of the working time normal to the establishment.
<i>Value Added</i>	Value added is the difference between the gross output and the intermediate consumption. It provides a useful way of measuring without duplication the economic importance of an industry or industrial sector.
<i>Working Proprietors</i>	Working proprietors are owners of establishments who are actively engaged in the work of the establishment. Excluded are silent or inactive partners.

INDUSTRIAL CLASSIFICATION USED.

SECTION P: EDUCATION from the Fiji Standard Industrial Classification 2010, commonly known as FSIC 2010 has been used. FSIC 2010 is based on International Standard Industrial Classification Rev 4.

EDUCATION includes education at any level or for any profession, oral or written as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at its different levels as well as adult education, literacy programmes etc. Also included are military schools and academies, prison schools etc. at their respective levels. The section includes public as well as private education.

For each level of initial education, the classes include special education for physically or mentally handicapped pupils.

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
85				EDUCATION
	851	8510		<p>Pre-primary and primary education</p> <p>This class includes the provision of instruction designed primarily to introduce very young children to a school-type environment and instruction that gives students a sound basic education in reading, writing and mathematics along with an elementary understanding of other subjects such as history, geography, natural science, social science, art and music. Such education is generally provided for children, however the provision of literacy programmes within or outside the school system, which are similar in content to programmes in primary education but are intended for those considered too old to enter elementary schools, is also included. Also included is the provision of programmes at a similar level, suited to children with special needs education. Education can be provided in classrooms or through radio, television broadcast, Internet, correspondence or at home.</p>

2012 CENSUS OF EDUCATION

Please correct any errors appearing in this label

Dear Sir\Madam,

Enclosed are two copies of the 2012 Census of Education questionnaire.

COVERAGE AND SCOPE: It covers all establishments engaged in the Education Industry classified under the Fiji Standard Industrial Classification 2010's Tabulation Category P (refer note on page 2). If an establishment's Education services activities are combined with other types of business, you should report on the Education services side of the operations only.

PURPOSE: The census provides an important means of assessing the contribution this sector makes to the economy of Fiji, and indicates the changing composition and structure of the industry. The results of the Census will be used by the Fiji Bureau of Statistics in the estimation of the National Income of Fiji and in the provision of other key indicators.

REFERENCE PERIOD: Reference period is the calendar year 2012. If your accounting year is different provide information approximating closest to the calendar year 2012. Limited liability companies are requested to submit a copy of their financial statements with the questionnaire.

COMPULSORY REQUIREMENT: The Census is conducted under the provisions of the Statistics Act 1961(Cap 71). In accordance with Section 8 subsection 2 of this Act you are required to fill in one copy of the questionnaire and return it to the undersigned on or before **18/10/13**. Failure to meet this deadline could result in legal action without further notice.

CONFIDENTIALITY OF INFORMATION: Information supplied will be used by the Department for the preparation of statistics. Any release of information will be in accordance with the Statistics Act and only persons authorised will have access to individual information.

CONTACT PERSON FOR HELP AND ADVICE: Ms Nazila Khan on extension 114 or email nkhan@statsfiji.gov.fj

NOTE: Under the Fiji Standard Industrial Classification 2010, Education includes education at any level or for any profession, oral or written as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at its different levels as well as adult education, literacy programmes and also military schools and academics, prisons schools as well as private educations.

ORGANISATIONAL STRUCTURE

- 1 A business can have more than one establishment involved in similar or different activities at different locations. State the location, the type of activity engaged in and the Gross Turnover of each establishment during the year.

FORM OF OWNERSHIP

- 4 (1) Fiji owned:
This is an establishment operating in Fiji in which 51% or more equity is held locally.
- (2) Branch of an overseas company:
This is an establishment operating in Fiji which is controlled by or supervised by an overseas head office and which is an integral part of the foreign parent organisation. Branch has no equity share capital.
- (3) Subsidiary of an overseas company:
A company is a subsidiary of another if that other company owns this subsidiary wholly or holds more than half the nominal value of the equity share capital of this subsidiary company.

EQUITY PARTICIPATION

- 5 Give the proportion of the share capital held by residents of Fiji. Equity share capital held by companies or individuals on behalf of residents of Fiji should also be included.

NATURE OF WORK

- 6 In cases where establishments are involved in more than one activity at a single location, please state the major activity involved in.

OPERATING STATUS

- 7 If you are no longer in business, a **STATUTORY DECLARATION** must be attached to one copy of the questionnaire with the words **“CLOSED BUSINESS”** written across the questionnaire and returned to the Fiji Bureau of Statistics. The Statutory Declaration must be signed by a Magistrate or a Barrister\Solicitor, Justice of Peace or a member of the Notary Public acting on your behalf. The Statutory Declaration must state the name of the business, nature of its activity and the date on which it ceased operation. If your business operated for part of the year 2012 please provide information for the duration your business operated.

QUESTIONNAIRE
