PREFACE

The report provides information on the Sewerage, Waste Management and Remediation Activities in 2014. The information was gathered from establishments that were engaged in activities related to the management (including collection, treatment and disposal) of various forms of waste, such as solid or non-solid industrial or household waste as well as contaminated sites.

The important numbers presented are the macro-economic aggregates such as Gross Output, Intermediate Consumption, Value Added, Compensation of Employees, Consumption of Fixed Capital and Gross Fixed Capital Formation. These aggregates are combined with similar information on other industries to provide an estimate of GDP, which is a measure of our economy's side. Information made available in this report will allow us to work out the industry's contribution to the economy. Information contained in this report constitutes inputs to a national accounts system which basically provides a quantitative image of the whole economy.

Information on the Sewerage, Waste Management and Remediation industry would be useful to a good number of users, for instance the;

- 1) Economist who needs to analyze the supply and demand for such services.
- 2) Planner who uses the data to forecast the economy's performance.
- 3) Investor who wishes to have a closer look at opportunities available in this industry sector.

The cooperation of those who supplied the information presented in this report is hereby acknowledged. The Bureau of Statistics will continue to seek their support as we need to continually provide reliable statistics for evidence based planning. I also would like to thank the staffs who were engaged in the conduct of the survey and the preparation of this report.

Epeli Waqavonovono
Government Statistician

NOTES

1 The interpretation of the symbols used in this report is as follows:

0 Nil or a figure less than half the given value

2 Total values are subject to rounding errors.

3 Key to Abbreviations:

BR	Business Register
CFC	Consumption of Fixed Capital
COE	Compensation of Employees
FBoS	Fiji Bureau of Statistics
FSIC	Fiji Standard Industrial Classification
GDP	Gross Domestic Product
GFCF	Gross Fixed Capital Formation
GO	Gross Output
IC	Intermediate Consumption
OS	Operating Surplus
SAS	Statistical Analysis System
VA	Value Added

4 VA in the report refers to Gross Value Added

1 INTRODUCTION

1.1 History of Surveys undertaken

A brief description of previous studies done on this sector is given below in chronological order.

2002: Census of Other Community, Social and Personal Services

Sewerage, waste management and remediation activities were covered under the scope of this survey that was conducted by the FBoS because of the need by its National Accounts Business Unit to re-base the constant price Gross Domestic product to 2002.

2003 – 2007: Manufacturing

Recycling of metal waste and scrap activities were covered under the scope of the Manufacturing survey.

2008 and 2009: Census of Sewerage, Waste Management and Remediation

Sewerage, waste management and remediation activities are produced annually on its own.

2010 and 2011: Census of Water Supply; Waste Management and Remediation

This report contains the results of the survey carried out for the 2010 and 2011 Water supply; Sewerage, Waste Management and Remediation activities (refer 2.2 on Coverage and Scope) together with the relevant information on the industry.

2012: Census of Sewerage, Waste Management and Remediation

Since 2012 the survey has been produced annually excluding the Water supply activities.

This report contains the results of the survey carried out for the 2014 Sewerage, Waste Management and Remediation activities (refer 2.2 on Coverage and Scope) together with the relevant information on the industry.

1.2 Need for statistics relating to Sewerage, Waste Management and Remediation Services

Sewerage, waste management and remediation activities are an important economic activity, whether in terms of the sector to the Gross Domestic Product (GDP) or in terms of its share of total employment and Gross Fixed Capital Formation (GFCF).

Statistics on sewerage, waste management and remediation activities are therefore needed for the preparation of national accounts so that a meaningful study of the whole economy can be made. The data can also be used to construct the input-output table that shows the inter-connection of the sewerage, waste management and remediation activities with other industries. Policy makers too require the data for formulating sound economic and social policies. In addition, the establishments engaged in the sewerage, waste management and remediation activities find the data helpful in assessing the future directions of their business.

2 METHODOLOGY

2.1 Legal Basis

The surveys were conducted under the provisions of the Statistics Act (Cap 71). This Act protects the confidentiality of the information submitted by the establishment and stipulates the completion of the questionnaire as well.

2.2 Coverage and Scope

The 2014 survey covered all establishments operating in the sewerage, waste management and remediation activities defined by the Fiji Standard Industrial Classification (FSIC) 2010 Section E. It is nevertheless possible that some small units not employing regular paid workers may have been omitted due to difficulties in identifying them, but the nature of such units do not affect the overall results in any significant way.

The businesses in sewerage, waste management and remediation activities are engaged in the collection, treatment supply and disposal of various forms of waste (refer Appendix II on Industrial Classification Used).

2.3 Statistical Unit

The unit of reporting was the establishment (refer Appendix I on Concepts and Definitions). In cases where establishments operated more than one type of business, efforts were made to obtain accounts for each activity. Where this was not feasible, the establishment was classified according to the type of activity that brought in the most revenue.

2.4 The Frame

The frame utilised to survey the establishments engaged in the sewerage, waste management and remediation activities in 2014 was the list of establishments maintained by the Fiji Bureau of Statistics (FBoS). This list is known as the Business Register (BR), which is kept updated on the basis of information supplied to the FBoS by the Fiji Revenue and Customs Authority, Registrar of Companies and the City and Town Councils.

2.5 Questionnaire Design

Data were collected through a questionnaire designed to cover the activities of the sewerage, waste management and remediation industry. It sought information on the particulars of the establishment e.g type of organisation; income; expenditure; stocks; assets and employment (refer Appendix IV for Sample Questionnaire).

2.6 Data Collection and Survey Procedures

The questionnaires were posted on 30th June, 2015 and replies were required within a month. Response by the due date was low; therefore personal visits to obtain the questionnaires were made to those establishments that did not respond.

Once the questionnaires were received in the office, scrutiny and editing of data contained in them followed. Errors and omissions if found, called for more correspondence, telephone calls or personal visits in an attempt to obtain complete and correctly filled up returns, which were then placed in files sorted by activity and passed on for data entry.

On completion of data entry, tables were run, data edited and analysed and reports written.

2.7 Data Processing

Data was processed by FBoS' Information Technology Business Unit using Statistical Analysis System (SAS) software.

2.8 Reference Period

The establishments contacted were to submit details for the calendar year 2014. Where the accounting year differed from the calendar year, establishments were asked to provide information for the accounting year that covered the major part of the calendar year 2014.

2.9 Non-responding Establishments

All the establishments operating in the sewerage, waste management and remediation activities responded.

3. RESULTS

All data contained in this report are in Fiji Dollars and in current prices.

All tables in this report contain data inclusive of estimates for non-response; exceptions are tables 1A, 2 to 5B and 8 to 10 that contain actual survey data.

Results of sub-classes [37001 and 38301] have been grouped together in order to protect the confidentiality of the information supplied by them.

3.1 Survey Response Rate

APPENDIX I

CONCEPTS AND DEFINITIONS

All concepts and definitions used in this report are based upon the recommendations of the United Nations for their World Programme on Industrial Statistics. The major concepts and definitions and their treatment are briefly explained below.

<i>Compensation of Employees</i>	Includes payments, whether in cash or in kind, made by the employer during the inquiry period for the work done to all persons included in the count of employees. It includes all cash payments, commissions, bonuses, cost of living allowances and wages paid during periods of vacation and sick leave, contributions in respect of their social security and pension and payments in kind.
<i>Consumption of Fixed Capital</i>	In theory this is the value of the current replacement cost of fixed assets used up during the accounting period as a result of normal wear and tear. The consumption of fixed capital shown in this report is derived from the information supplied by the firm. This is expected to conform largely to the requirements of Income Tax Act.
<i>Employees</i>	This includes all persons who work in the establishment and receive regular pay and persons working away from the establishment when paid by and under the control of the establishment, including persons on sick leave, holiday or vacation. Also included are salaried managers, and directors of incorporated businesses except when paid solely for their attendance at board of directors meetings. This category excludes working proprietors and unpaid family workers.
<i>Establishment</i>	An establishment can be referred to as an enterprise that engages in one or predominantly one kind of economic activity, at or from one location, for which data are available or can be meaningfully compiled, that allow the calculation of the operating surplus.
<i>Fixed Assets</i>	Fixed assets include the value of all physical assets expected to have a productive life of more than one year and intended for use by the establishment. Included are major additions, alterations and improvements to existing fixed assets that extend their normal economic life or raise their productivity.
<i>Foreign Owned</i>	Subsidiary of an overseas company is always considered foreign owned, whereas a branch of an overseas company is only considered foreign owned if 51 per cent of its equity is held abroad.
<i>Government Owned Entities</i>	These include commercial companies and commercial statutory authorities either wholly owned by Government or in which the Government has a majority shareholding.
<i>Gross Fixed Capital Formation</i>	This is the outlay on new and second-hand durable goods less their sales plus their own account capital construction work done.

<i>Gross Output</i>	This is the gross value of all goods and services produced during the accounting period, the value of own account capital construction and other income.
<i>Intermediate Consumption</i>	Intermediate consumption consists of non-durable goods and services which have a lifetime of use of less than one year. Compensation of employees do not form part of intermediate consumption, but expenditure such as travelling expenses of management personnel are included. Intermediate consumption differs from total purchases of raw materials, fuels etc. by the amount of stock changes of such goods. Valuation of intermediate consumption is at purchasers' value i.e. it is inclusive of all costs incurred by producers in the acquisition of the required goods and services.
<i>Local Owned</i>	All companies with 51 per cent or more of its equity held in Fiji are considered locally owned.
<i>Operating Surplus</i>	This is the excess of value added by producers over compensation of employees, consumption of fixed capital and net indirect taxes.
<i>Payments in kind</i>	This is defined as the net cost to the employer of those goods and services furnished to employees free of charge or at markedly reduced cost that are clearly and primarily of benefit to the employees as consumers. The item includes food, beverages, clothing (except uniforms for civilians as these are not worn off-duty) and lodging etc.
<i>Persons Engaged</i>	This is defined as the total number of persons who worked in or for the establishment during the reference period, including working proprietors, active business partners, unpaid family workers and regular paid workers.
<i>Statistical Unit</i>	Statistical unit is the Unit for which information is collected.
<i>Unpaid Family Workers</i>	Unpaid family workers are persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least one third of the working time normal to the establishment.
<i>Value Added</i>	Value added is the difference between the gross output and the intermediate consumption. It provides a useful way of measuring without duplication the economic importance of an industry or industrial sector.
<i>Working Proprietors</i>	Working proprietors are owners of establishments who are actively engaged in the work of the establishment. Excluded are silent or inactive partners.

APPENDIX II

INDUSTRIAL CLASSIFICATION USED

SECTION E: WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES

This section includes activities related to the management (including collection, treatment and disposal) of various forms of waste, such as solid or non-solid industrial or household waste, as well as contaminated sites. The output of the waste or sewage treatment process can either be disposed off or become an input into other production processes. Activities of water supply are also grouped in this section, since they are often carried out in connection with, or by units also engaged in, the treatment of sewage.

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
36				WATER COLLECTION, TREATMENT AND SUPPLY
	360	3600		<p>Water collection, treatment and supply</p> <p>This sub-class includes:</p> <ul style="list-style-type: none"> -collection of water from rivers, lakes, wells etc., as well as rain water -purification of water for water supply purposes -treatment of water for industrial and other purposes -desalting of sea or ground water to produce water as the principal product of interest -distribution of water through mains, by trucks or other means for domestic and industrial needs -operation of irrigation canals <p>This sub-class excludes:</p> <ul style="list-style-type: none"> -operation of irrigation equipment e.g. sprinklers for agricultural purposes, see 01619 -treatment of wastewater in order to prevent pollution, see 37001
37				SEWERAGE
	370	3700		<p>Sewerage</p> <p>This sub-class includes:</p> <ul style="list-style-type: none"> -operation of sewer systems or sewer treatment facilities -collecting and transporting of human or industrial wastewater from one or several users, as well as rain water by means of sewerage networks, collectors, tanks and other means of transport (sewage vehicles etc.) -emptying and cleaning of cesspools and septic tanks, sinks and pits from sewage; servicing of chemical toilets -treatment of wastewater (including human and industrial wastewater, water from swimming pools etc.) by means of physical, chemical and biological processes like dilution, screening, filtering, sedimentation etc. -maintenance and cleaning of sewers and drains, including sewer rodding

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
38				WASTE COLLECTION, TREATMENT AND DISPOSAL ACTIVITIES; MATERIALS RECOVERY
	381	3810		<p>Collection of waste</p> <p>This sub-class includes collection of :</p> <ul style="list-style-type: none"> -non-hazardous waste i.e. solid waste or garbage e.g. - recyclable materials, used cooking oils and fats, construction and demolition waste, debris such as brush and rubble, waste output of textile mills etc from within a local area such as public places, households and businesses by means of refuse bins, wheeled bins, containers etc. -hazardous waste i.e. the collection of solid and non-solid waste e.g. explosive, oxidizing, flammable, toxic, irritant, carcinogenic, corrosive, infectious and other substances and preparations harmful for human health and environment. It may also entail identification, treatment, packaging and labeling of waste for the purposes of transport. <p>This sub-class excludes:</p> <ul style="list-style-type: none"> -operation of landfills for the disposal of non-hazardous waste, see 38201 -operation of facilities where commingled recoverable materials such as paper, plastics, etc. are sorted into distinct categories, see 38301 -remediation and clean up of contaminated buildings, mine sites, soil, ground water, e.g. asbestos removal, see 39001
	382	3820		<p>Waste treatment and disposal</p> <p>This sub-group includes the disposal and treatment prior to disposal of various forms of waste by different means, such as waste treatment of organic waste with the aim of disposal; treatment and disposal of toxic live or dead animals and other contaminated waste; treatment and disposal of transition radioactive waste from hospitals, etc.; dumping of refuse on land or in water; burial or ploughing-under of refuse; disposal of used goods such as refrigerators to eliminate harmful waste; disposal of waste by incineration or combustion with or without the resulting production of electricity.</p> <p>Included is also the generation of electricity resulting from waste incineration processes.</p> <p>This group excludes:</p> <ul style="list-style-type: none"> -treatment and disposal of wastewater, see 37001
	383	3830		<p>Materials recovery</p> <p>This sub-class includes:</p> <ul style="list-style-type: none"> -processing of metal and non-metal waste and scrap and other articles into secondary raw materials, usually involving a mechanical or chemical transformation process -recovery of materials from waste streams in the form of: <ul style="list-style-type: none"> ▪ separating and sorting recoverable materials from non-hazardous waste streams (i.e. garbage)

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
				<ul style="list-style-type: none"> ▪ separating and sorting of commingled recoverable materials, such as paper, plastics, used beverage cans and metals, into distinct categories <p>Examples of the mechanical or chemical transformation processes that are undertaken are:</p> <ul style="list-style-type: none"> -mechanical crushing of metal waste such as used cars, washing machines, bikes etc. with subsequent sorting and separation -dismantling of automobiles, computers, televisions and other equipment for materials recovery -mechanical reduction of large iron pieces -shredding of metal waste, end-of-life vehicles etc. -other methods of mechanical treatment as cutting, pressing to reduce the volume -ship-breaking -reclaiming metals out of photographic waste, e.g. fixer solution or photographic films and paper -reclaiming of rubber such as used tires to produce secondary raw material -sorting and pelleting of plastics to produce secondary raw material for tubes, flower pots, pallets and the like -processing (cleaning, melting, grinding) of plastic or rubber waste to granulates -crushing, cleaning and sorting of glass -crushing, cleaning and sorting of other waste such as demolition waste to obtain secondary raw material -processing of used cooking oils and fats into secondary raw materials -processing of other food, beverage and tobacco waste and residual substances into secondary raw materials <p>This sub-class excludes:</p> <ul style="list-style-type: none"> -manufacture of new final products from (whether or not self-produced) secondary metal raw materials, such as spinning yarn from garnetted stock, making pulp from paper waste, retreading tyres or production of metal from metal scrap, see corresponding classes in section C (Manufacturing) -treatment and disposal of non-hazardous waste, see 38201 -treatment of organic waste for disposal, see 38201 -energy recovery from non-hazardous waste incineration processes, see 38201 -disposal of used goods such as refrigerators to eliminate harmful waste, see 38201 -treatment and disposal of transition radioactive waste from hospitals etc., see 38201 -treatment and disposal of toxic, contaminated waste, see 38201 -dismantling of automobiles, computers, televisions and other equipment to obtain and resell usable parts, see section G -wholesale of recoverable materials, see 46699
39				REMEDIATION ACTIVITIES AND OTHER WASTE MANAGEMENT SERVICES
	390	3900		Remediation activities and other waste management services This sub-class includes: <ul style="list-style-type: none"> -decontamination of soils and groundwater at the place of pollution,

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
				<p>either in situ or ex situ, using e.g. mechanical, chemical or biological methods</p> <ul style="list-style-type: none"> -decontamination of industrial plants or sites, including nuclear plants and sites -decontamination and cleaning up of surface water following accidental pollution, e.g. through collection of pollutants or through application of chemicals -cleaning up of oil spills and other pollutions on land, in surface water, in ocean and seas, including coastal areas -asbestos, lead paint, and other toxic material abatement -clearing of landmines and the like (including detonation) -other specialized pollution-control activities <p>This sub-class excludes:</p> <ul style="list-style-type: none"> -treatment and disposal of non-hazardous waste, see 38201 -treatment and disposal of hazardous waste, see 38201 -outdoor sweeping and watering of streets etc., see 81201

2014 CENSUS OF SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES

Tax Identification Number

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Please correct any errors appearing in this label

Dear Sir/Madam,

Enclosed are two copies of the 2014 Census of Water Supply; Sewerage, Waste Management and Remediation Activities questionnaire.

COVERAGE AND SCOPE: It covers all establishments engaged in Water Supply; Sewerage, Waste Management and Remediation Activities Industry classified under the Fiji Standard Industrial Classification 2010's Section E (refer note on page 2). If an establishment's Water Supply; Sewerage, Waste Management and Remediation Activities are combined with other types of businesses, you should report on the Water Supply; Sewerage, Waste Management and Remediation Activities side of the operations only.

PURPOSE: The census provides an important means of assessing the contribution this industry makes to the economy of Fiji, and indicates the changing composition and structure of the industry. The results of the Census are used by the Fiji Bureau of Statistics to estimate the National Income of Fiji and in the provision of other key indicators.

REFERENCE PERIOD: Reference period is the calendar year 2014. If your accounting year is different provide information approximating closest to the calendar year 2014. Limited liability companies are requested to submit a copy of their financial statements with the questionnaire.

COMPULSORY REQUIREMENT: The Census is conducted under the provisions of the Statistics Act 1961(Cap 71). In accordance with Section 8 subsection 2 of this Act you are required to fill in one copy of the questionnaire and return it to the undersigned on or before **30/07/15**. Failure to meet this deadline could result in legal action without further notice.

CONFIDENTIALITY OF INFORMATION: Information supplied will be used by the Department for the preparation of statistics. Any release of information will be in accordance with the Statistics Act and only persons authorised will have access to individual information.

CONTACT PERSON FOR HELP AND ADVICE: Ms Taloline Keleinautoka on email talolinek@statsfiji.gov.fj or telephone 331 5822 (ext: 386 243) or direct line 323 0843.

Epeli Waqavonovono
Government Statistician

NOTE: Under the Fiji Standard Industrial Classification 2010's Section E Water Supply; Sewerage, Waste Management and Remediation Activities includes all units mainly engaged in water supply, sewage and refuse disposal

ORGANISATIONAL STRUCTURE

1 A business can have more than one establishment involved in similar or different activities at different locations. State the location, the type of activity engaged in and the Gross Turnover of each establishment during the year.

FORM OF OWNERSHIP

- 4 (1) Fiji owned:
This is an establishment operating in Fiji in which 51% or more equity is held locally.
- (2) Branch of an overseas company:
This is an establishment operating in Fiji which is controlled by or supervised by an overseas head office and which is an integral part of the foreign parent organisation. Branch has no equity share capital.
- (3) Subsidiary of an overseas company:
A company is a subsidiary of another if that other company owns this subsidiary wholly or holds more than half the nominal value of the equity share capital of this subsidiary company.

EQUITY PARTICIPATION

5 Give the proportion of the share capital held by residents of Fiji. Equity share capital held by companies or individuals on behalf of residents of Fiji should also be included.

NATURE OF WORK

6 In cases where establishments are involved in more than one activity at a single location, please state the major activity involved in.

OPERATING STATUS

7 If you are no longer in business, a **STATUTORY DECLARATION** must be attached to one copy of the questionnaire with the words "**CLOSED BUSINESS**" written across the questionnaire and returned to the Fiji Bureau of Statistics. The Statutory Declaration must be signed by a Magistrate or a Barrister\Solicitor, Justice of Peace or a member of the Notary Public acting on your behalf. The Statutory Declaration must state the name of the business, nature of its activity and the date on which it ceased operation. If your business operated for part of the year 2014 please provide information for the duration your business operated.

QUESTIONNAIRE

Please answer all relevant questions with clear and correct figures. Estimates will be accepted where actual data are not available. Values, **excluding VAT**, are to be expressed in Fiji Dollars.

ORGANISATIONAL STRUCTURE

1	Does this business operate at more than one location?			
	Please tick the appropriate box: No Yes If yes, please give details below:			
	NAME OF ESTABLISHMENT\BRANCH (1)	PHYSICAL LOCATION OF BUSINESS (2)	MAIN TYPE OF BUSINESS OR ACTIVITY (3)	GROSS TURNOVER (4)
	Note: This return is required for the addressed establishment only. In case this is not possible, a combined return with similar main activities may be submitted. If the information cannot be provided on this basis, please state the reasons:			
	Remark: Please comment here to assist in the interpretation of data supplied:			

ACCOUNTING PERIOD

2	Please state the accounting period: From \ 2014 To \ 2014
---	---

EMPLOYMENT AND COMPENSATION OF EMPLOYEES

53 Please note that the information in respect of employment is for the last pay week in June 2014 but the rest of the question requires data for the appropriate accounting year.

Gross wages and salaries includes overtime, sick and holiday pay, bonuses, payments under piece rate schemes, all allowances, severance and redundancy pay, sales commissions paid to own employees and directors fee etc.

Payment in kind is the cost to the employer for providing employees with housing, transport, clothing, food, drinks, fuels, etc free of charge or at a reduced rate.

Operatives includes all employees directly engaged in the activity of the establishment, eg those in fabrication, processing, assembling, shop messengers, warehouse men, packers and repair men etc. Casual workers should also be included here.

Others includes administrators, technical and clerical personnel, eg salaried managers, clerks and typists etc.

Expatriates are non-Fiji citizens who stayed in Fiji to work.

Working proprietors include all individual proprietors and partners who are actively engaged in the work of the establishment. Silent or inactive partners should be excluded unless they participate actively in the work of the establishment.

Unpaid family workers include persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least a third of the normal working hours of the establishment.

STOCKS

56 a] All trading stocks (stocks intended for resale) should be included. Stocks of capital goods intended for resale should also be included.

b] This should include stocks of materials used by the business in its operations.

LOANS AND ADVANCES

57 Please provide information relating to any loan or advances taken during the period.

NET EARNINGS AND TAXES PAID

58 This is the net profit of your establishment\enterprise from the profit and loss account. The following method would enable you to check if all the information from the trading, profit and loss account have been entered onto the questionnaire:

	Income [Code 027 + 093]	\$
less	Expenditure [Code 084]	\$
equals	Profit (+)\Loss (-) [Code 112]	\$
