PREFACE

The report provides information on the electricity industry in 2015. The activities covered include power generation, transmission and distribution. The important numbers presented are the macro-economic aggregates such as Gross Output, Intermediate Consumption, Value Added, Compensation of Employees, Consumption of Fixed Capital and Gross Fixed Capital Formation. These aggregates are combined with similar information on other industries to provide an estimate of GDP, which is a measure of our economy's size. Information made available in this report will allow us to work out the industry's contribution to the country's economy.

The amount of electricity produced in a given year mirrors the level of economic activity while the estimated Gross Fixed Capital formation reflects investment levels in the industry. Information contained in this report constitutes inputs to a national accounts system which basically provides a quantitative image of the whole economy.

Information on the electricity industry would be useful to a good number of users, for instance the;

- 1) Energy Planners who needs to advice on the country's energy needs.
- 2) Economic Planners who uses the data to forecast the economy's performance.
- 3) Investor who wishes to identify opportunities in the Electricity Industry.

The cooperation of those who supplied the information presented in this report is hereby acknowledged. The Bureau of Statistics will continue to seek their support as we need to continually provide reliable statistics for evidence based planning. I also would like to thank the staffs who were engaged in the conduct of the survey and the preparation of this report.

Epeli Waqavonovono [Mr]
Government Statistician

NOTES

1 The interpretation of the symbols used in this report is as follows:

0 Nil or a figure less than half the given value

2 Total values are subject to rounding errors.

3 Key to Abbreviations:

BR	Business Register
CFC	Consumption of Fixed Capital
COE	Compensation of Employees
EPI	Electricity Production Index ¹
FBoS	Fiji Bureau of Statistics
FSIC	Fiji Standard Industrial Classification
GDP	Gross Domestic Product
GFCF	Gross Fixed Capital Formation
GO	Gross Output
IC	Intermediate Consumption
IPI	Industrial Production Index
OS	Operating Surplus
SAS	Statistical Analysis System
VA	Value Added

4 VA in the report refers to Gross Value Added

¹ Forms part of the Industrial Production Index

1 INTRODUCTION

1.1 History of Surveys Undertaken

This report contains the results of the survey carried out for Electricity for 2015.

The first economic survey of the electricity sector was done in 1969 and was combined with the study of the mining and quarrying and manufacturing sectors. Since then the survey has been carried out annually. The results of the survey from 1969 to 1994 were published in reports titled “Census of Industries”; from 1995 to 2001 in reports titled “Census of Mining and Quarrying, Manufacturing and Electricity and Water, but from 2002 the results of the electricity sector are being produced solely on its own under the title “Economic Surveys: Electricity”.

1.2 Need for statistics relating to Electricity

Electricity production and generation is an important economic activity, whether in terms of the sector to the Gross Domestic Product (GDP) or in terms of its share of total employment and Gross Fixed Capital Formation (GFCF).

Statistics on electricity are therefore needed for the preparation of national accounts so that a meaningful study of the whole economy can be made. The data can also be used to construct the input-output table that shows the inter-connection of the electricity industry with other industries. Policy makers too require the data for formulating sound economic and social policies that augment capital formation. In addition, the establishments engaged in the electricity industry find the data helpful in assessing the future direction of their business.

2 METHODOLOGY

2.1 Legal Basis

The surveys were conducted under the provisions of the Statistics Act (Cap 71). This Act protects the confidentiality of the information submitted by the establishment and stipulates the completion of the questionnaire as well.

2.2 Coverage and Scope

The 2015 survey covered all establishments operating in the electricity industry defined by the Fiji Standard Industrial Classification (FSIC) 2010 Section D.

The businesses in the electricity industry include the generation of bulk electric power, transmission from generating facilities to distribution centers and distribution to end users (refer Appendix II on Industrial Classification Used).

2.3 Statistical Unit

The unit of reporting was the establishment (refer Appendix I on Concepts and Definitions).

2.4 The Frame

The frame utilised to survey the establishments engaged in the electricity industry in 2015 was the list of establishments maintained by the Fiji Bureau of Statistics (FBoS). This list is known as the Business Register (BR), which is kept updated on the basis of information supplied to the FBoS by the Fiji Revenue and Customs Authority, Registrar of Companies and the City and Town Councils.

2.5 Questionnaire Design

The questionnaire used for surveying the electricity industry called for information on the particulars of the establishment e.g type of organisation; income; expenditure; stocks and employment.

2.6 Data Collection and Survey Procedures

The questionnaires were posted on 8th May, 2016 and replies were required within a month. Response by the due date was low (42%), therefore personal visits to obtain the questionnaires were made to those establishments that did not respond in spite of the reminders and to those establishments that required assistance in filling out the questionnaires.

Once the questionnaires were received in the office, scrutiny and editing of data contained in them followed. Errors and omissions if found, called for more correspondence, telephone calls or personal visits in an attempt to obtain complete and correctly filled up returns, which were then placed in files sorted by activity and passed on for data entry.

On completion of data entry, tables were run, data edited and analysed and reports written.

2.7 Data Processing

Data was processed by FBoS' Information Technology Business Unit using Statistical Analysis System (SAS) software.

2.8 Reference Period

The establishments contacted were to submit details for the calendar year 2015. Where the accounting year differed from the calendar year, establishments were asked to provide information for the accounting year that covered the major part of the calendar year.

2.9 Non-responding Establishments

All the establishments operating in the electricity industry responded.

3 RESULTS

All data contained in this report are in Fiji Dollars and in current prices.

For supplementary information on the electricity statistics reference can be made to Appendix I for the Concepts and Definitions, Appendix II for the Industrial Classification Used, Appendix III for the Composition of Macroeconomic Aggregates, Appendix IV for the Sample Questionnaire, Appendix V for the Sales of Electricity, Appendix VI for the Annual Electricity Production Index, Appendix VII for the Quarterly Electricity Production Index and Appendix VIII for Value Added 1985 – 2015

APPENDIX I: CONCEPTS AND DEFINITIONS

All concepts and definitions used in this report are based upon the recommendations of the United Nations for their World Programme on Industrial Statistics. The major concepts and definitions and their treatment are briefly explained below.

<i>Compensation of Employees</i>	Includes payments, whether in cash or in kind, made by the employer during the inquiry period for the work done to all persons included in the count of employees. It includes all cash payments, commissions, bonuses, cost of living allowances and wages paid during periods of vacation and sick leave, contributions in respect of their social security and pension and payments in kind.
<i>Consumption of Fixed Capital</i>	In theory this is the value of the current replacement cost of fixed assets used up during the accounting period as a result of normal wear and tear. The consumption of fixed capital shown in this report is derived from the information supplied by the firm. This is expected to conform largely to the requirements of Income Tax Act.
<i>Employees</i>	This includes all persons who work in the establishment and receive regular pay and persons working away from the establishment when paid by and under the control of the establishment, including persons on sick leave, holiday or vacation. Also included are salaried managers, and directors of incorporated businesses except when paid solely for their attendance at board of directors meetings. This category excludes working proprietors and unpaid family workers.
<i>Establishment</i>	An establishment can be referred to as an enterprise that engages in one or predominantly one kind of economic activity, at or from one location, for which data are available or can be meaningfully compiled, that allow the calculation of the operating surplus.
<i>Fixed Assets</i>	Fixed assets include the value of all physical assets expected to have a productive life of more than one year and intended for use by the establishment. Included are major additions, alterations and improvements to existing fixed assets that extend their normal economic life or raise their productivity.
<i>Foreign Owned</i>	Subsidiary of an overseas company is always considered foreign owned, whereas a branch of an overseas company is only considered foreign owned if 51 per cent of its equity is held abroad.
<i>Government Owned Entities</i>	These include commercial companies and commercial statutory authorities either wholly owned by Government or in which the Government has a majority shareholding.
<i>Gross Fixed Capital Formation</i>	This is the outlay on new and second-hand durable goods less their sales plus their own account capital construction work done.
<i>Gross Output</i>	This is the gross value of all goods and services produced during the accounting period, the value of own account capital construction and other income.

<i>Intermediate Consumption</i>	Intermediate consumption consists of non-durable goods and services which have a lifetime of use of less than one year. Compensation of employees do not form part of intermediate consumption, but expenditure such as travelling expenses of management personnel are included. Intermediate consumption differs from total purchases of raw materials, fuels etc. by the amount of stock changes of such goods. Valuation of intermediate consumption is at purchasers' value i.e. it is inclusive of all costs incurred by producers in the acquisition of the required goods and services.
<i>Local Owned</i>	All companies with 51 per cent or more of its equity held in Fiji are considered locally owned.
<i>Operating Surplus</i>	This is the excess of value added by producers over compensation of employees, consumption of fixed capital and net indirect taxes.
<i>Payments in kind</i>	This is defined as the net cost to the employer of those goods and services furnished to employees free of charge or at markedly reduced cost that are clearly and primarily of benefit to the employees as consumers. The item includes food, beverages, clothing (except uniforms for civilians as these are not worn off-duty) and lodging etc.
<i>Persons Engaged</i>	This is defined as the total number of persons who worked in or for the establishment during the reference period, including working proprietors, active business partners, unpaid family workers and regular paid workers.
<i>Statistical Unit</i>	Statistical unit is the Unit for which information is collected.
<i>Unpaid Family Workers</i>	Unpaid family workers are persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least one third of the working time normal to the establishment.
<i>Value Added</i>	Value added is the difference between the gross output and the intermediate consumption. It provides a useful way of measuring without duplication the economic importance of an industry or industrial sector.
<i>Working Proprietors</i>	Working proprietors are owners of establishments who are actively engaged in the work of the establishment. Excluded are silent or inactive partners.

APPENDIX II: INDUSTRIAL CLASSIFICATION USED

Only electricity from SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY of the Fiji Standard Industrial Classification 2010, commonly known as the FSIC 2010 has been used. FSIC 2010 is based on the International Standard Industrial Classification Rev 4.

ELECTRICITY includes the activity of providing electric power through a permanent infrastructure (network) of lines, mains and pipes. The dimension of the network is not decisive; also included are the distribution of electricity in industrial parks or residential buildings. This section therefore includes the operation of electric utilities, which generate, control and distribute electric power.

DIVISION	GROUP	CLASS	SUB-CLASS	DESCRIPTION
35				ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY
	351	3510	35101	<p>Electric power generation, transmission and distribution</p> <p>This sub-class includes the generation of bulk electric power, transmission from generating facilities to distribution centers and distribution to end users:</p> <ul style="list-style-type: none"> -operation of generation facilities that produce electric energy, including thermal, hydroelectric, gas turbine, diesel and renewable -operation of transmission systems that convey the electricity from the generation facility to the distribution system -operation of distribution systems (i.e. consisting of lines, poles, meters, and wiring) that convey electric power received from the generation facility or the transmission system to the final consumer -sale of electricity to the user -activities of electric power brokers or agents that arrange the sale of electricity via power distribution systems operated by others -operation of electricity and transmission capacity exchanges for electric power <p>This sub- class excludes:</p> <ul style="list-style-type: none"> -production of electricity through incineration of waste, see 38201

CONFIDENTIAL

DESPATCHED: 30/06/16

2015 CENSUS OF ELECTRICITY

Tax Identification Number

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Please correct any error appearing in this label

Dear Sir\Madam,

Enclosed is a copy of the 2015 Census of Electricity questionnaire.

COVERAGE AND SCOPE: It covers all establishments engaged in Electricity Activities Industry classified under the 2010 Fiji Standard Industrial Classification (refer note on page 2). If an establishment's electricity activities are combined with other types of business, please report only on the operations of the electricity activities.

PURPOSE: The census provides an important means of understanding the composition and structure of the industry and assessing the contribution of this sector to the economy. The results of the Census will be used by the Fiji Bureau of Statistics in the estimation of the National Income of Fiji and in the provision of other key indicators.

REFERENCE PERIOD: Reference period is the calendar year 2015. If your accounting year is different provide information approximating closest to the calendar year 2015. Limited liability companies are requested to submit a copy of their financial statements with the questionnaire.

COMPULSORY REQUIREMENT: The Census is conducted under the provisions of the Statistics Act (Cap 71). In accordance with Section 8 subsection 2 of this Act you are required to fill the questionnaire and return it to the undersigned on or before **30/07/16**. Failure to meet this deadline could result in legal action without further notice.

CONFIDENTIALITY OF INFORMATION: Information supplied will be used by the department for the preparation of statistics. Any release of information will be in accordance with the Statistics Act and only authorised persons will have access to individual information.

CONTACT PERSON FOR HELP AND ADVICE: Ms Taloline Keleinavutoka on email talolinek@statsfiji.gov.fj or telephone 331 5822 (ext: 386 245) or direct line 323 0845.

Epeli Waqavonovono [Mr]
Government Statistician

Electricity 2015
Economic Statistics Division

NOTE: Under the 2010 Fiji Standard Industrial Classification, Electricity includes the generation of bulk electric power, transmission from generating facilities to distribution centers and distribution to end users.

ORGANISATIONAL STRUCTURE

1 A business can have more than one establishment involved in similar or different activities at different locations. State the location, the type of activity engaged in and the Gross Turnover of each establishment during the year.

FORM OF OWNERSHIP

- 5 (1) Fiji owned:
This is an establishment operating in Fiji in which 51% or more equity is held locally.
- (2) Branch of an overseas company:
This is an establishment operating in Fiji which is controlled by or supervised by an overseas head office and which is an integral part of the foreign parent organisation. Branch has no equity share capital.
- (3) Subsidiary of an overseas company:
A company is a subsidiary of another if that other company owns this subsidiary wholly or holds more than half the nominal value of the equity share capital of this subsidiary company.

EQUITY PARTICIPATION

6 Give the proportion of the share capital held by residents of Fiji. Equity share capital held by companies or individuals on behalf of residents of Fiji should also be included.

NATURE OF WORK

7 In cases where establishments are involved in more than one activity at a single location, please state the major activity involved in.

OPERATING STATUS

8 If you are no longer in business, a **STATUTORY DECLARATION** must be attached to one copy of the questionnaire with the words “**CLOSED BUSINESS**” written across the questionnaire and returned to the Fiji Bureau of Statistics. The Statutory Declaration must be signed by a Magistrate or a Barrister\Solicitor, Justice of Peace or a member of the Notary Public acting on your behalf. The Statutory Declaration must state the name of the business, nature of its activity and the date on which it ceased operation. If your business operated for part of the year 2015 please provide information for the duration your business operated.

QUESTIONNAIRE

Please answer all relevant questions with clear and correct figures. Estimates will be accepted where actual data are not available. Values, **excluding VAT**, are to be expressed in Fiji Dollars.

ORGANISATIONAL STRUCTURE

1	Does this business operate at more than one location?			
	Please tick the appropriate box: No Yes If yes, please give details below:			
	NAME OF ESTABLISHMENT\BRANCH (1)	PHYSICAL LOCATION OF BUSINESS (2)	MAIN TYPE OF BUSINESS OR ACTIVITY (3)	GROSS TURNOVER (4)
<p>Note: This return is required for the addressed establishment only. In case this is not possible, a combined return with similar main activities may be submitted. If the information can not be provided on this basis, please state the reasons:</p> <p>Remark: Please comment here to assist in the interpretation of data supplied:</p>				

ACCOUNTING PERIOD

2	Please state the accounting period: From \ 2015 To \ 2015			
---	---	--	--	--

LEGAL STATUS OF ORGANISATION

	Please tick appropriate box			
3	Sole Trader	1	Partnership	2
	[001] Private Limited Company	3	Public Limited Company	4
	Co-operative	5	Government Owned Trading Entity	6
	Statutory Board	7	Central Government	8
	Local Authority	9	Local Government	10
	Joint Venture and Consortia	11	Non-profit organization	12
	Trusts and Estates	13	Consulates and Foreign	14
	Branch of a Company	15	Societies and Associations	16
	Other Business Type (specify)			17

INTERNATIONAL TRADE

4	Please tick appropriate box	Yes	No
	Does the establishment import or export any type of goods or services		

FORM OF OWNERSHIP

	Please tick appropriate box			
5	[002] Fiji owned	1	Branch of an overseas company	2
	Subsidiary of an overseas company	3	Others (specify)	4

EQUITY PARTICIPATION

6	Please indicate in the appropriate box equity capital held by Fiji Citizens.			
	(a) As at end of 2014	%	(b) As at end of 2015	%

NATURE OF WORK

7	Please give a brief description of the main activity of the establishment\s covered by this return:			
	003 FOR OFFICIAL USE ONLY			

OPERATING STATUS

8	Please state whether the establishment in question (tick appropriate box)			
	Operated during the whole of the accounting period specified	1		
	Operated during part of the accounting period specified (specify mths)	2		
	Had not commenced business during the accounting period specified	3		

ELECTRICITY SALES AND OTHER INCOME DERIVED DURING THE ACCOUNTING YEAR

9 This refers to the sale of electricity generated by the establishment. The value should be the actual selling value, net of any discount or rebate allowed to the buyer.

Include: (i) Sales of waste products, residues etc.
(ii) Excise dues should be included as part of the value of sales in the local market.

Exclude VAT charged on goods and services provided.

Do not include: Goods bought for resale in the same condition as purchased.

Local market sales: Exclude sales to local exporters for exports which should be shown as exports.

Please supply both the quantity and value of the goods produced by the establishment.

OTHER INCOME

13 a) Include all claims arising from business insurance. Examples of business insurance are insurance against the risk of buildings, properties and stocks. Exclude life, education or any other personal insurance.

b) Include all claims received arising from casualty insurance. Examples of casualty insurance are insurance against the risk of accidents and illness etc to employees. Claims for life, education or any other form of personal insurance are to be excluded.

15 Include rent received for building, plant and machinery, furniture and fixtures, transport vehicles and related equipment. Exclude rent received for land which should be included in question 16 a].

20 This is the resale value of goods bought, the goods being in the same condition as received and having undergone no intervening manufacturing process by your establishment.

21 State the total sales, if any, of electricity produced by your establishment.

ELECTRICITY SALES AND OTHER INCOME DERIVED DURING THE ACCOUNTING YEAR

9	DESCRIPTION OF PRODUCT	LOCAL MARKET SALES		TOTAL SALES
		QUANTITY AND UNITS (1)	VALUE (\$) (2)	VALUE (\$) (3)

21	Commissions received	034	
22	Receipts from industrial services rendered to others:		
	a) Plant and equipment hire	035	
	b) Repairs and maintenance to: i) Plant, machinery and equipment	036	
	ii) Others – Street Lights	037	
	c) Transport and related services	038	
23	Service and licence fees	039	
24	Power pole rentals	040	
25	Training rebates	041	
26	Others (specify). Miscellaneous income	042	

	Total other income (Codes 018 - 042)	043	
27	VAT charged on goods and services provided	044	
28	GRAND TOTAL OF ALL INCOME RECEIVED (Codes 017 + 043 + 044)	045	

PURCHASES OF MATERIALS AND OPERATING EXPENDITURE

29 State in detail the total value and quantity of all purchases of material and supplies during the year for use in the generation process. In arriving at the value, deduct trade discounts received. The cost of transport should also be excluded unless it is accounted as part of the purchase price. Direct import by establishments should be reported at cost. Exclude any transport cost paid to outside firms which should be included in question 39.

Include all purchases of:

- a] Basic materials, components, semi-manufactured goods and so on that are physically incorporated in the establishment.
- b] Auxiliary materials such as lubricants, packaging materials, small tools, part materials for repair and maintenance.
- c] Materials for producing machinery or other capital items for own use.
- d] Materials bought for carrying 'own construction' work reported in question 72.

Exclude all purchases of: Machinery and plant and other capital equipment purchased by you which should be included in question 72.

Exclude VAT paid on supplies of goods and services.

FUEL, ELECTRICITY AND WATER

31-34 Expenditure on fuel represents the total value of fuel purchased by your establishment for use in the production of heat, power or electricity including gasoline and other fuels for vehicles. Exclude those that enter directly into the production process as they should be reported as raw materials.

35-36 State the total value of electricity and water purchased by your establishment for the production process.

OTHER EXPENDITURE

38 Repairs and maintenance costs paid to other firms covers the total costs of current repair and maintenance service provided by such firms on repairs done on vehicles, building, machinery and equipment of the establishment. Current repair and maintenance carried out by other establishments or by ancillary repair and maintenance unit which has been treated as an independent establishment should be included.

39 Cartage and haulage expense includes payment for the transportation of goods and materials within the country. It excludes cost of transport carried out by your own equipment and employees.

41 Contract and commission work done by other establishments on your materials covers payments made by the establishment for contract and commission work done on materials controlled by your establishment.

50 a] Include payment in respect of leased\rented land. If it is not possible to separate payments made for land building, please include expenditure in question 49.

b] Include interest on long-term debts and interest on all borrowing.

PURCHASES OF MATERIALS AND OPERATING EXPENDITURE

	Total other expenditure (Codes 092 to 124 excluding 112)		125

EMPLOYMENT AND COMPENSATION OF EMPLOYEES

61 Please note that the information in respect of employment is for the last payweek in June 2015 but the rest of the question requires data for the appropriate accounting year.

Gross wages and salaries includes overtime, sick and holiday pay, bonuses, payments under piece rate schemes, all allowances, severance and redundancy pay, sales commissions paid to own employees and directors fee etc.

Payment in kind is the cost to the employer for providing employees with housing, transport, clothing, food, drinks, fuels, etc free of charge or at a reduced rate.

Operatives includes all employees directly engaged in the activity of the establishment, eg those in fabrication, processing, assembling, shop messengers, warehouse men, packers and repair men etc. Casual workers should also be included here.

Others includes administrators, technical\clerical personnel, eg managers, clerks etc.

Expatriates are non-Fiji citizens who stayed in Fiji.

Working proprietors include all individual proprietors and partners who are actively engaged in the work of the establishment. Silent or inactive partners should be excluded unless they participate actively in the work of the establishment.

Unpaid family workers include persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least a third of the normal working hours of the establishment.

STOCKS

64 Work-in-progress consists of unfinished output at the end of the reference year.

65 Finished goods bought for resale are stocks of goods bought for resale in the same condition as purchased.

66 The value of materials, fuel supplies and components are stocks of raw materials not used up in the production process.

LOANS AND ADVANCES

67 Please provide information relating to any loan or advances taken during the period

NET EARNINGS AND TAXES PAID

68 This is the net profit of your establishment\enterprise from the profit and loss account. The following method would enable you to check if all the information from the trading, profit and loss account has been entered onto the questionnaire:

Income [Code 044 + 159]	\$
less Expenditure [Code 144]	\$
equals Profit (+)\Loss (-) [Code 178]	\$

EMPLOYMENT AND COMPENSATION OF EMPLOYEES						
61			NUMBER EMPLOYED (1)	GROSS WAGES AND SALARIES PAID (2)	EMPLOYER'S CONTRIBUTION TO FNNP ETC (3)	PAYMENT IN KIND (4)

⁴ This data is based on collections from bills paid to FEA and will therefore differ from the sales data given in Table 4: Macroeconomic Aggregates

APPENDIX VI: ANNUAL ELECTRICITY PRODUCTION INDEX⁵ [Base Average 4 = Quarters 2011 = 100.0]

FSIC 2010	Weight	2012	2013	2014	2015
35101	12.9	103.8	105.9	107.7	110.1

Notes:

- The base of the index is 2011 = 100.0 and Laspeyre's formula is used.
- Electricity generated by Fiji Sugar Corporation for its own consumption is also included.

Source:

- Quarterly returns submitted by Producers.

⁵ Extracted from the Industrial Production Index (IPI), which constitutes apart from Electricity; Mining and Quarrying and Manufacturing sectors also. Out of a total weight of 100.0 in the IPI, Electricity has a weight of 12.9.

APPENDIX VII: QUARTERLY ELECTRICITY PRODUCTION INDEX⁵**[Base: Average 4 Quarters 2011 = 100.0]**

FSIC 2010	Weight	PERIOD				
			Mar	Jun	Sep	Dec
35101	12.9	2012	103.5	106.0	106.0	99.6
		2013	107.5	108.0	99.6	108.5
		2014	113.5	111.0	96.9	109.5
		2015	117.3	106.5	100.6	116.1

Notes:

- The base of the index is 2011 = 100.0 and Laspeyre's formula is used.
- Electricity generated by Fiji Sugar Corporation for its own consumption is also included.

Source:

- Quarterly returns submitted by Producers.

APPENDIX VIII: VALUE ADDED 1985 – 2015

The table gives data on VA from 1985 to 2015 in dollar value and percentage change compared to the previous year.

YEAR	VA \$000	% Change
1988	45,681	14.37
1989	47,129	3.17
1990	42,625	-9.56
1991	67,986	59.5
1992	80,007	17.68
1993	75,813	-5.24
1994	73,819	-2.63
1995	70,013	-5.16
1996	67,296	-3.88
1997	69,257	2.91
1998	69,381	0.18
1999	80,034	15.35
2000	64,034	-19.99
2001	62,712	-2.06
2002	74,350	27.75
2003	64,419	-13.36
2004	52,561	-18.41
2005	53,983	2.7
2006	28,657	-47.01
2007	58,266	103.31
2008	33,365	-42.74
2009	57,671	72.85
2010	84,469	46.47
2011	113,732	34.64
2012	120,820	6.23
2013	122,409	1.32
2014	83,223	-47.09
2015	113,049	35.84
