Notes: Any discrepancy in totals and sum of components are due to rounding.

1 Primary income refers to receipts and payments of employee compensation paid to non-resident workers and investment income.

2 Current transfers refers to offsetting entries to transactions where goods and services are supplied or received without there being an exchange of equal value in return. For example aid in cash or kind, remittances, social contribution and gifts or donations.

3 Capital transfers involve the transfer of ownership of fixed assets, or the transfer of funds linked to them, without any counterpart transaction. For example grants or gifts provided for capital work projects.
