FBoS Release No: 104, 2018

28th December 2018

PRODUCER PRICE INDEX (SERVICES) Experimental Series September Quarter 2018 [Base: Average 4 quarters 2014 = 100.0]

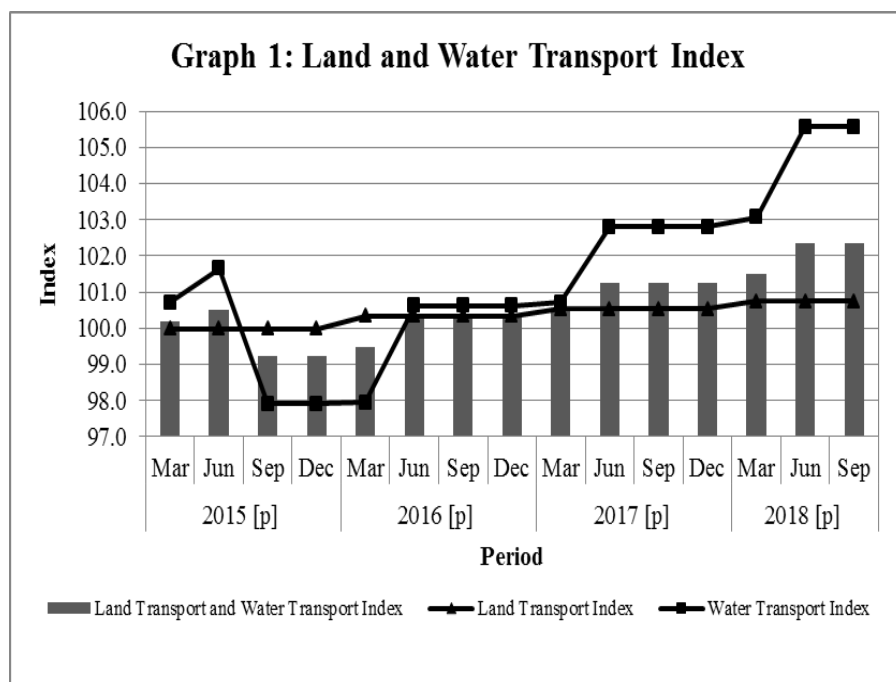

The Producer Price Index (PPI) Services reported in this release covers price changes in the activities of land and water transport services, as we progress our development of the index.

The Producer Price Index (Services) measures changes in the average prices of a selected range of services sold as they leave the producer. The main uses of the Index are as follows:

- 1) Deflator in the compilation of Real Gross Domestic Product (GDP) estimates;
- 2) To provide an indicator of business inflation; and
- 3) As an indicator of the business cycles.

The Fiji Standard Industrial Classification (FSIC) 2010 has been used for classifying industries and services.

September Quarter Highlights

The Land and Water transport index stood at 102.4 for the September quarter of 2018, representing an increase of 1.1 percent when compared to the same period in 2017.

However, when compared to the June quarter of 2018, the Land and Water transport index showed no change.

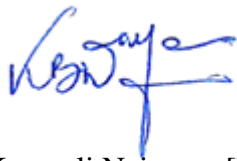

Contributing to the corresponding quarter increase were higher prices recorded for water transport and freight transport by road.

Please find attached the following:

- Table 1:** Yearly & Quarterly SPPI series;
- Appendix I:** Technical notes; and
- Appendix II:** 2011 Base SPPI series (Table 2).

For further enquiries, please contact Ms. Komal Devi on email kdevi@statsfiji.gov.fj or telephone 331 5822 (ext. 386 239) or direct line 323 0839.

The Producer Price Index for December Quarter 2018 will be released in March, 2019.

Kemueli Naiqama [Mr]

Deputy Government Statistician

APPENDIX I

Technical Notes

Service Producer Price Index (SPPI)

Measures the changes in the average prices received by domestic service producers for a selected range of services in Fiji. It is a fixed weighted index with Average 4 Quarters 2014 = 100.0 and is calculated on a quarterly basis using the Fiji Standard Industrial Classification (FSIC).

Index Formula

The Producer Price Index is compiled using the Laspeyres index formula with Average 4 Quarters 2014 = 100.0 as the reference base period.

FSIC

Fiji Standard Industrial Classification.

GDP

Gross Domestic Product.
